JILL PICKETT/The News-Enterprise

December 22, 2006

Mickey Gattis rolls a hospital bed to load it into an overseas shipping container Thursday at the Church of Christ in Elizabethtown. The church is working with Counterpart International to send donated medical supplies to Dushanbe, Tajikistan. "A lot of people don't realize the conditions of the facilities there," Ray Pack, associate minister, said. Previously, the church has sent supplies to the Ukraine. Church members who have been on follow-up mission trips reported that though the supplies they send are used, they are like new compared to what residents there have, said Pack. Tajikistan is bordered by Afghanistan to the south and China to the east.
